

LAVA 20 SUPER QUICK PRIMER

TECHNICAL DATA SHEET
Date: 15. 10. 2021 Version

Description

Developed to meet the demand for a quicker yet still penetrating single pack primer. Whilst most other single pack Pu primers available to professional roofers are tack free in times from 2hrs our Quick Prime is ready to be overcoated in times from just 10 minutes! This creates a huge time saving when the area to be primed is small and you as the contractor would usually have to wait before installing the membrane. Not anymore! Compatible with most substrates including Concrete, wood and bituminous membranes.

50

Technical data

Colour	Amber
Specific weight at 20°C	1±0.01 kg/l
Viscosity at 20°C	30±10 mPa.s (speed 100 – Gr.1)
Solids	46% by weight 40% by volume
Theoretical consumption	150 g/m ²
ASTM D 4541 adhesion to concrete	>3 MPa
Overapplication time at 22°C, 50% RH	20 minutes minimum 60 minutes maximum
Storage	12 months from date of production if stored properly in original, unopened sealed packaging, in a dry place at temperatures between +5°C and +35°C.
VOC: 661 g/l
